### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE **ABSTRACT**:

**DELETE THE SPACE BETWEEN THE TWO SENTENCES TO CREATE ONE PARAGRAPH.**

### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

2. Claims 1-6, 9, 12-15 and 17-24 are allowed. The closest prior art reference Menting (US 2003/0165682) fails to expressly disclose or in combination teach the claimed microcapsule comprising (a) a core containing at least one rubber additive, (b) at least two shells made from the claimed resin having the claimed thickness, and (c) the claimed sliding layer made of the claimed materials, wherein the shell and the sliding layer together have the claimed thickness. The selection of the claimed microcapsule steps using the claimed components within the prior art involves an unduly and unobvious amount of modifications, wherein the reference fails to motivate one to arrive at the totality of the claimed invention. It is not known in the art of metallized layer formation, there is no motivation to do so, nor, would it have been obvious to one of ordinary skill at the time of the invention. Hence, the invention as a whole is regarded as novel and unobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SAIRA HAIDER whose telephone number is (571)272-3553. The examiner can normally be reached on Monday-Friday from 10am-6pm.
